ORGANIZATION

OF THE

City Government, January 2, 1922.

The final meeting of the City Council of 1921 was held in the Council Room at 7.30 o'clock in the afternoon.

Mayor Whittaker and Councilmen James, Seamans, Rousseau, Riley, Benson, Woodman, Atwood, Lagace, and Douphinett were present.

After disposing of the business coming before them the Council adjourned to the Opera House, where Mayor Whittaker delivered his valedictory address.

Mayor Whittaker's Valedictory Address.

My Fellow Citizens:

An occasion like this should bring pleasure to the heart of any citizen who has the good of the community at heart. I have served as mayor of our city for two years and it is for you to say whether my work has been successful or not. All I can say is that I did my very best and if there were some things I did not do well, it was because I could not, and not because I did not try.

It has been a great pleasure for me to work with so many earnest, thoughtful men and women as I have been associated with during these two years. Our city is blessed with a large number of men and women who devote their time and best thought to advance the general interests of all.

I am certain I do not overstate the case when I say that we have as many good citizens, according to our population, as any city.

When we stop to think of it, a good citizen is the greatest asset any community could have. A good citizen is one who constantly and conscientiously accommodates his conduct and his business to the rights of others and the interests of the community. A good citizen thinks of his city as a part of his life. There are always some who think that those who are giving time to public affairs must have the motive of self-interest because they themselves have no conception of public duties and no realization of the satisfaction of self-sacrifice.

The good citizen does not forget to register, he does not neglect the primaries, he tries to find out which nominees are the best men, he rarely or never votes a straight ticket. He is willing to accept public office and still more willing to lay it down when his service has been rendered.

And so, my friends, I take this occasion to thank each and every one of you and all the citizens of Franklin for every kind word and deed you have extended to me during the two years I have acted as your mayor and assure you that I shall continue to take a kindly interest in the welfare of this community. I shall gladly support those who may come into office in the future in every measure which will benefit the city.

Someone has said that he who accepts a trust is public property. This may be true to some extent. My notion of city governments is that they are created to function for all the people. When a public official takes the oath of office, he agrees to support the Constitution of the United States and to administer the laws justly and impartially. Governments exist by law and only by enforcement of law can we have good government. The city government about to retire has in the past met with severe criticism and yet what we sought to do was to turn over to our successors the good name of our city, untarnished.

What Has Been Accomplished.

Two years ago when I assumed the duties of mayor, the outside roads were in a very bad condition. We promised to improve this condition last year. Owing to extreme rains and consequent damage to roads, not as much was accomplished as we had hoped to, but this year nearly all these conditions have been remedied. The people who use these roads tell me they are in better condition than they have been for years. It has cost a large expenditure of money to do this. If these roads are properly cared for it should not cost very much to keep them in good condition. Last year we completed the road to the Andover line. This year we have built over a mile of new road on the Sanborn-ton road, so-called. This should be completed the coming year. With this plan in view most of the appropriation for highways can be expended on the streets within the city limits.

Fire Department.

During the past year we have purchased a new LaFrance fire pump to take the place of the defunct steamer. This will be a great help in fighting fires especially at low pressure places in our water system. This pump is to be delivered some time this month.

Schools.

During the past year the city council passed a vote, instructing the mayor and city treasurer to borrow a sum of money not to exceed \$24,000, to build additions to the Hancock school house, but owing to the high cost of labor and material this has not been done.

A city nurse has been maintained the past year. Her work has been mostly in the schools in an effort to teach the children how to become good, healthy citizens, that they may the better fit themselves for the duties which lie right ahead of them. This work has been highly satisfactory and is well worth the money expended. The work is in charge of Mrs. Annie Provost, an efficient and capable nurse.

Soldiers' Memorial.

The last city report contained the names and record of those from Franklin who served in the World War. A bronze tablet has been placed on the Soldiers' Memorial building bearing their names, and was dedicated with appropriate ceremonies on Armistice Day. It has been suggested that another tablet be erected, bearing the names of the veterans of the Civil and Spanish Wars, and the Council of 1921 has recently voted to do this, and I have no doubt but the new Council will carry out this program.

Police Department.

During the last summer this department was called upon to handle a critical situation, and while it was not handled to please everybody, and by many was criticized severely, yet I believe every officer on the force was conscientious and tried to do his full duty.

Mr. Bassett, who has been for a long term of years a faithful and efficient night officer, has been unable, during the past year, to perform the duties of the office, but we have kept him in the service, allowing him to do what he could. I trust that some arrangement may be made whereby Mr. Bassett will be continued on the payroll of the city, as I feel that the conscientious and efficient service rendered by him for so many years should not go unrewarded.

Franklin Rate Case.

INCOME.

Commercial lighting under old schedule,	\$27,153.93
Commercial lighting at flat rates,	3,429.00
Municipal street lighting,	7,796.49
Municipal building lighting,	545.62

Total,	\$38,931.04
--------	-------------

SAME SCHEDULE.

Commercial lighting under first proposed schedule,	\$39,174.07
Commercial lighting at flat rates,	4,004.50
Municipal street lighting,	7,796.49
Municipal building lighting,	545.62

Total,	\$51,520.68
	38,931.04

Difference,	\$12,589.64
-------------	-------------

The maintenance of the old schedule under the holding of the Public Service Commission has resulted in a saving to the people of the City of Franklin of over a thousand dollars a month, with the amount for municipal street lighting taken as before, without taking into account any proposed increase that might be asked for municipal street lighting upon the expiration of the present contract.

The valuation for rate making purposes has been established at \$245,000 plus \$15,000 for working capital and supplies, or a total of \$260,000.

The Franklin Light and Power Company filed a proposed schedule of rates to take effect September 1, 1920. This rate as filed, without objection on the part of anybody, would have taken effect on that date and the people of the city would have been paying for light and power under that schedule from that time on. The city, through the mayor, objected to this schedule going into effect and requested an investigation of the entire subject of rates for both light and power and the establishment of the value of the property of the Franklin Light and Power Company for rate making purposes.

When the city entered its objection the proposed rates were automatically suspended and the company continued to furnish light and power at the old rates.

Lighting Rates.

Under the old schedule the income of the company from lighting rates alone, including the municipal lighting, amounted to \$38,931.04 per year. Under the first schedule as filed by the company, the income to be derived by the company would have amounted to \$51,520.68, a difference in lighting alone of \$12,589.64 increased income which the people of the city would have to pay for lighting alone. Through the investigation called for by the city therefore, there has been saved over one thousand dollars per month for lighting alone. As before stated the schedule was filed to take effect September 1, 1920, and the Public Service Commission was not handed down until October 1, 1920. It will be readily seen that during the period of investigation and consideration by the commission alone, there was a sav-

ing to the people of the city on lighting of between fourteen and fifteen thousand dollars. This saving is now made permanent, of course, by the order of the commission, declining to allow the proposed increase in lighting rates to go into effect.

Power Schedule.

For the present the commission has allowed the power schedule as filed to go into effect. The old power schedule was unscientific and discriminatory in certain of its phases. The new schedule as filed is a scientific schedule which wipes out the discriminatory features of the old schedule and under which every power user will pay for exactly what he uses, based upon meter readings. In this connection the Public Service Commission said: "In view of the unusual uncertainty of the continuance of present conditions the rates will be subject to revision whenever, after reasonable trial, they are found to be unfair and unjust."

Finances.

The balance sheet for the year 1921, as taken from the books of the City Clerk, shows that our indebtedness has increased during the past year to the extent of \$7,757.54.

The increase was caused by extraordinary expenditures which it was impossible for us to see or estimate correctly at the time the appropriations were made, and consisted principally of the following items: Cash, amounting to \$4,500.00 borrowed for the water commissioners to enable them to complete the new filter at the Pemigewasset plant; overdrafts in the incidental account of \$6,670.12, police department \$1,841.97, highways \$1,115.03, and discount of \$960.00 in the sale of the water works refunding bonds issued October 1, 1921, amounting in all to \$15,087.12. The difference between the increase of debt and the cause of same is partially accounted for by unexpended balances in several of the city departments.

The large overdraft in the incidental account was caused primarily by expense of contesting the raise in rates for electricity, which was sought by the Franklin Light and Power Company, through the Public Service Commission, and which resulted in a substantial victory for the users

of electricity in Franklin, according to a recent decision of the commission.

The overdraft in the police department was occasioned by the addition to the force of a night officer in Ward One after the appropriations were made, a substitute for Officer Bassett during his inability to serve on account of lameness caused by a fall while performing his duties as night officer, and a considerable sum paid out for special police during the summer and fall.

In connection with the discount in the sale of the Water Works Refunding Bonds issued October 1, 1921, I desire to state that the city was most unfortunate in having the bonds become due and payable on the above mentioned date as it was just previous to the decline in the rates of interest, and if the payment could have been postponed for a few weeks the bonds would have sold at a premium instead of a discount.

According to the requirements of a law passed by the Legislature in 1917, the city was obliged to make the Water Works Refunding Bonds payable serially in a term not to exceed fifteen years, and the payment for any year could not be less than the amount paid in any subsequent year, therefore the bonds were made payable \$6,000 per year for five years, and \$5,000 per year for ten years, beginning October 1, 1922. The requirements of the law apply to any indebtedness incurred by any municipality which is to be paid by the issuance of bonds or long term notes, excepting that on new investments the term limit is 20 years. It would be well to bear the foregoing facts in mind when considering any large expenditures, as the sums required to be paid on the indebtedness each year must be raised by taxation and cannot help but increase the tax rate unless sharp economies are practised in other directions.

All old issues of bonds becoming due in the future must be paid in the same manner as described and the payers will not only be obliged to pay in a limited period for new investments, but have the added burden of paying indebtedness incurred many years ago.

Value of Property.

One of the important things decided by the commission is the valuation of the property of the company for rate making purposes. The rates are based upon a fair return on a fair value as found by the commission and in view of the high value placed upon the property by the company itself, partly because of the value claimed for the water power, it is important that the commission has allowed a value of \$245,000.00 as a fair value upon which to base rates, plus \$15,000.00 additional for working capital and supplies.

Commercial Lighting.

The old rate and the one which the commission sustained :

12 cents for the first 10 K. W.

10 cents for the second 10 K. W.

8 cents for the remaining K. W. used.

The first schedule filed by the company called for 14 cents per K. W. for all used. By taking the rate as billed to you now by the company and figuring the difference between that and what it would cost you if the first schedule filed had gone into effect, you can readily see what it would have cost you under the proposed increase.

Purchasing Agent.

In my address to the Council on January 3rd last, I recommended the appointment of a Purchasing Agent, through whom the purchases of material for all the departments of the city should be made, believing that such a method, which had been recommended to us by all the large business interests in Franklin, would not only prove beneficial to the city in a financial way but would add to the efficiency of conducting our municipal business.

At the meeting of the City Council on February 7th, it was voted to appoint the City Clerk as Purchasing Agent and the result of adopting this new method of purchasing supplies for the several departments has certainly proved an undoubted success. Not only has a large amount of money been saved in purchases made, but the decrease in the quantity of materials bought has amounted to a much

greater sum. Another valuable feature of the system installed by the Purchasing Agent is being able to tell at once to whom the city is indebted for purchases made, and the exact amount owed to each business concern. Through the working of the method it was found at the end of our fiscal year that the city owed less than \$2.00 for goods bought, but for which no bill had been rendered. The continuance of this new system, with the hearty co-operation of the city officials, cannot fail to prove a great financial benefit to the city.

And now as we come to the end of our journey, I desire to express my sincere thanks to all city officials for the many courtesies you have extended me, for advice and council which I never sought in vain. I am deeply grateful.

To the various citizens' committees, all of whom served faithfully and well, I express my sincere thanks.

To you, gentlemen of the Council, with whom I have been associated during the past two years, I can never forget the courtesy and splendid co-operation you have extended. You have acted like men with an honest desire to do the best you could for your city, and as you retire from service, you do so fully conscious you have done your best. Doubtless, we have all made mistakes, but as they are honest ones we can face the future with courage and fortitude.

To you who are to remain in the Council, I am sure you will continue to use your best judgment for the best interest of the city as well as those who are to join you as new members.

To my successor, Mr. Douphinett, I extend my hearty congratulations. My earnest wish is that your administration may meet with unparalleled success, and in all you seek to do in the interest of the city, you may have the same splendid support that has been my portion during the past two years.

The first meeting of the City Council of 1922 was called to order in the Opera House.

The oath of office was administered by City Clerk Goss to Mayor-elect Louis H. Douphinett and to Councilmen-

elect Herbert A. Griffin of Ward One, Eusebe P. Lemire of Ward Two, and John H. Thompson, Jr., of Ward Three.

Prayer was offered by Rev. C. B. Hansen.

Mayor Douphinett delivered his inaugural address as follows:

Mayor Douphinett's Inaugural Address.

Gentlemen of the Council—Ladies and Gentlemen:—

I desire to express to you my earnest thanks for the honor you have conferred upon me in electing me as Mayor of our city. I do not consider this election a personal or political victory, but rather a victory for the principles for which I stand, a triumph for the ideals of true Democracy.

I realize that the election just held presented an abnormal condition, that the issue was clear-cut, and that certain forces were lined up against me which represented wealth and power. The result, however, clearly proved that the majority of our citizens are in sympathy with our fight against an unjust and cruel corporation, a corporation that will not use the only fair and just means for settling their labor differences, the Arbitration Board. A corporation, though strongly organized itself, refuses to allow its employees to organize. The only paper-making corporation in this whole wide country which refuses to deal with its workers as Union men.

However, we are not here tonight to discuss labor questions. Our program has to do with the conduct of Franklin's affairs for this year of 1922. I wish to assure you that I shall give my best efforts to the successful accomplishment of this program.

I believe in Franklin. I believe in law, and the preservation of order, in spite of all the propaganda so carefully circulated prior to my election. I shall endeavor to merit your approval when the year is finished. I do not intend to set forth a detailed list of things to be done during this year. I believe that this should be a year of deeds instead of words; that after a reasonable discussion of motions in the Council, action should be taken, and thoughtful action that will not require constant reconsideration. I believe that

appropriations should be kept down this year, of all years. The whole world is in the very depth of financial depression. Individuals and corporations are curtailing, and cities should certainly follow the same rules. If I were to criticize the former administrations of Franklin in any respect, I would say that the Councils have been too generous and perhaps too extravagant in some cases. It is perfectly reasonable for heads of departments to want all they can get for their own budget, and I think it behooves us to put the lid down on every measure that calls for money over the barest essentials.

We are a small city of 7,000 people. We cannot have a fire department, a highway department, a school department, a police department and other departments like Concord, Manchester, or Nashua. We must, as a city, live as men must live, within our income, and according to our size and fortune. Where departments or duties of officials can be combined, or concentrated, without losing efficiency, I advocate this combination.

In closing, let me make this suggestion: Let's make this one of Franklin's best years. Let's economize in every way without impairing our efficiency. Let's pull together and forget our differences of opinion. I realize that I am the Mayor of all the people, and as such, I ask for the cooperation of all of our citizens. With this help and cooperation, I pledge to give to our City an administration that will reflect credit on our citizens and upon myself.

CITY COUNCIL.

Mayor.

Elected annually on the fourth Tuesday of November. Salary \$200 a year.

LOUIS H. DOUPHINETT.

Councilmen.

Elected by wards for three years. One member from each ward elected on the fourth Tuesday of November annually. No salary.

Term Expires.

<i>Ward 1</i> —DAVID T. ATWOOD	January 1, 1923
THOMAS L. RILEY	January 7, 1924
HERBERT A. GRIFFIN	January 5, 1925
<i>Ward 2</i> —ALPHONSE LAGACE	January 1, 1923
FRANCIS T. DOUPHINETT	January 7, 1924
EUSEBE P. LEMIRE	January 5, 1925
<i>Ward 3</i> —JAMES B. WOODMAN	January 1, 1923
*ALBERT E. JAMES	January 7, 1924
JOHN H. THOMPSON, JR.	January 5, 1925

* Died July 18, 1922.

Standing Committees of the City Council, 1922.

HIGHWAYS—LAGACE, WOODMAN, GRIFFIN.
SEWER—ATWOOD, LEMIRE, RILEY.
PARK, DELINQUENCY AND DOUPHINETT, GRIFFIN, THOMPSON.
POLICE—LEMIRE, JAMES, THOMPSON.
SCHOOLS—WOODMAN, THOMPSON, DOUPHINETT.
PUBLIC LANDS AND BUILDINGS—GRIFFIN, DOUPHINETT,

HIGHWAY DEPARTMENT.

HIGHWAY COMMISSIONER'S REPORT.

To the Mayor and City Council of Franklin:

The following is a detailed report of the work done on the City highways the present year.

State Aid Construction.

About 4,300 feet of gravel road has been built on Glenwood avenue, which completes the State road from Cheney street to the Sanbornton town line.

Trunk Line Maintenance.

The usual coat of Tarvia B and sand was applied on the Daniel Webster highway, and 65 per cent oil to the macadam on the Mascoma Valley highway.

In conjunction with the State and Federal governments, about 3300 lineal feet of the highway from the Clark farm to the Tilton town line was rebuilt and a two inch coat of asphalt was applied, the work having been done under a contract with the Winslow & Cummings company of Nashua.

About 2350 lineal feet of the Daniel Webster highway from the railroad underpass on South Main street, southerly, was rebuilt, and a two inch asphalt top applied. The work was done by the Winslow & Cummings company.

State Aid Maintenance.

Sixty-five per cent oil and sand was applied to the macadam on the Hill road, and about 1000 feet of the gravel road was resurfaced.

Both the Hill and Sanbornton roads have been patrolled.

Streets.

River street from School street to Winnepesaukee street, has been entirely rebuilt with crushed stone and two coats of Standard B Binder. The roadway is 1050 feet in length and the average width is 34 feet; cost about \$4,000; is a thoroughly permanent road and was paid for out of the Highway appropriation.

Elkins street for a distance of about 1200 feet has been graded and covered with ashes.

Country Highways.

The usual work with the road machine has been done, a large quantity of gravel and clay has been applied and the roads have been regularly dragged and kept in good condition.

Bridges.

The Sucker brook bridge has been rebuilt and all other wooden bridges have been repaired.

Sidewalks.

One thousand yards of concrete sidewalks and 674 yards of crossings were built on Central, Chestnut, Elkins, Winnepesaukee, Oak, North and South Main and River streets. •

About 200 yards of sidewalks and crossings were re-covered.

Sewers.

New construction of house sewerage was as follows: Maple street, 375 feet of six inch pipe. Central street, 440 feet of 12 inch pipe.

The whole sewerage system has been flushed and is in good condition.

Garbage.

During a greater part of the year it has been necessary to cart the garbage to the dump near Webster lake and the long haul has added considerably to the expense of garbage removal.

Tools and Equipment.

The department has purchased a tractor with wood sawing attachment, and also a new road machine.

Both of the machines were found very useful, especially the tractor, which was used to run the stone crushing plant, drag roads and saw wood.

All the equipment is in good condition.

I desire to thank the members of the City government for their hearty co-operation in the work of the department during the year.

JAMES C. NOWELL, Commissioner.

FIRE DEPARTMENT

ENGINEER'S REPORT.

The following report from December 31, 1921 to December 31, 1922, is submitted: The manual force consists of Chief Harry E. Colby and two assistants, John E. Cunningham and Almedos Rousseau. The combination chemical and pumper, 15 men, Edward Wheeler, captain. The Hook and Ladder Company, No. 1, 15 men, Albert Garneau, captain. Hose Company, No. 1, South Main street, 10 men, Alwin Dean, captain.

Location of Apparatus.

Hose Company, No. 1, South Main Street.

One one-horse sled.
One 30-foot ladder.
500 feet 2½ inch hose.
One hand tub.

Prescott's Garage.

One automobile hose and chemical wagon, carrying eight pony fire extinguishers, 500 feet 2½-inch hose, boots, coats and hats, nozzles, axes, etc.

Carries three men besides driver, and nine men going to brush fires.

One automobile combination, hose, chemical and hook and ladder truck, carrying 950 feet of 2½-inch hose, one 40 gallon chemical tank with 200 feet ¾-inch chemical hose, and all ladders formerly carried on Seagrave Hook and Ladder truck, also extinguishers with extra charges, hose pipes, axes, gates, relief valve, stops, spanners, wrenches, coats, hats, boots and belts for 30 men. One cellar pipe, wire cutter, tin roof cutter, ropes, eight smoke protectors and one deluge set.

Central Fire Station.

One American LaFrance triple combination truck.

One two-horse Seagrave hook and ladder truck.

There is at the Central fire station, 2,250 feet of 2½-inch hose in good condition, also 300 feet of leaky hose that could be used in case of a big fire.

Hose 3, Central Street, Opposite Paper Mill B.

One hand reel with pipes, wrenches, spanners and 400 feet 2½-inch hose.

Hose 4, Head of Elm Avenue.

One hand reel with pipes, wrenches, axes, spanners and 400 feet 2½-inch hose.

One two wheeled truck equipped with one 31-foot roof ladder, one 28-foot, one 20-foot and one 15-foot ladder.

Hose 5, Pearl Street, Near Park Street.

One hand reel with pipes, wrenches, axes, spanners and 400 feet 2½-inch hose.

Hose 6, Sturtevant Street.

One hand reel with pipes, wrenches, axes, spanners and 400 feet 2½-inch hose.

There is also one 55-foot extension ladder at the city stable.

Pony extinguishers to be used by any person for fire purposes in the vicinity of the places of keeping are in the following places: City hall 4, Franklin passenger station 1.

Recommendations.

We would recommend the purchase of 500 feet of new hose; also the installation of additional fire alarm boxes.

HARRY E. COLBY,
Chief Engineer,

JOHN E. CUNNINGHAM,
Assistant Engineer and Clerk, Board of Engineers,

ALMEDOS ROUSSEAU,
Assistant Engineer.

Location of Boxes.

14. Webster and Main Streets.
15. Odell Private Box.
16. Depot and Main Streets.
17. Central and Main Streets.
21. Center of Bow Street.
22. South End of Franklin Street.
23. Paper Mill Square.
24. Glenwood Avenue.
25. Franklin and Central Streets.
26. Light and Power Co., Private Box.
27. Bow and Central Streets.
28. Front of Freight Depot.
29. Elkins and Grove Streets.
31. Prospect and School Streets.
32. Front of Dr. Adams'.
34. Central Street and Pearl Place.
35. Pleasant and Orchard streets and Myrtle Avenue.
51. Central Street and Glenwood Avenue.
57. Railroad Street.
112. North Main Street near Bristol R. R. Crossing.
113. Webster Street, near Commercial Machine Co.
114. Orphans' Home.
311. Highland Avenue and Beech Street.
312. Corner Sanborn and Proctor Streets.
313. Central and Lancaster Streets.

Engineer's Report.**Fires from December 31, 1921 to December 31, 1922.**

Regulations of the Franklin Fire Department.

Adopted December 20, 1909.

Section 1. The fire department of the City of Franklin, shall be composed of a chief engineer, first assistant engineer, second assistant engineer, and a superintendent of fire alarms, who shall each be appointed by the city council; combination chemical and pumper company to consist of fifteen men, one hose company to consist of ten men and one hook and ladder company to consist of fifteen men.

Section 2. The chief engineer and two assistant engineers shall constitute a board of engineers and shall exercise the power of firewards.

Section 3. The chief engineer and each assistant engineer shall hold his office and perform his duties until his successor takes his oath of office.

Section 4. The City Council, for cause, after hearing, may remove from office the chief engineer or any assistant engineer.

Chief Engineer.

Section 5. The chief engineer shall have sole command over all persons present at fires whether members of the fire department or not.

Article 1. He shall direct all proper measures for extinguishing fires, protecting property, preserving order at fires, and enforcing laws, ordinances and regulations regarding fires.

Article 2. He shall have charge of and examine into the condition of all fire apparatus, fire alarm system, houses and all fire department property and shall cause needed repairs to be made under the direction of the committee on fire department of the City Council.

Article 3. He shall certify all pay rolls and bills against the department and shall be responsible for the care of all property connected with the fire department.

Article 4. In the absence of the chief engineer the next

engineer in rank, who may be present, shall have the power to perform the duties of the chief engineer.

Board of Engineers.

Section 6. The board of engineers shall inspect and make themselves familiar with all shops, factories, hotels, tenement houses, public buildings, halls, churches and schoolhouses once a year, and study the location of all hydrants and generally inform themselves in all matters pertaining to their duties.

Article 1. They shall have control of all persons appointed to serve in any company of the fire department and shall have power to direct and control the labor of all persons present at a fire.

Article 2. They may from time to time make and enforce such regulations for the government of the department as they may deem proper.

Article 3. They may establish such regulations respecting public safety, kindling, guarding, safe keeping, prevention, and extinguishment of fires, and for the removal of combustibles from any place, and the keeping or storing of explosives, as they think expedient, which shall be signed by a major part of them, approved by the Council and recorded by the city clerk, and attested copies posted in two or more public places in the city thirty days before they shall take effect.

(a) Penalties not exceeding ten dollars for each offence may be prescribed for breach of such regulations and such regulations shall remain in force until altered or annulled.

Article 4. They shall examine the qualifications and fitness of all applicants for membership in the department and no person, whose application has not been approved by a majority of the board of engineers, shall become a member of the company.

Article 5. At the first meeting in each year, after the qualification of the engineers, they shall proceed to elect, by a majority vote, a clerk of the board of engineers, a captain, a lieutenant and a clerk for each company, each of whom shall hold office until his successor is elected.

Article 6. Any member of any company may be dismissed from the department or from office in a company by two-thirds vote of the board present.

Article 7. They shall in conjunction with the annual report of the chief engineer, make recommendations as to the needs of the department.

Article 8. Every engineer shall cause any fire deemed by him to be dangerous, in any street or elsewhere to be extinguished or removed.

Superintendent of Fire Alarm.

Section 7. The fire alarm system shall be under the control of the chief engineer, with direct supervision by a superintendent of fire alarm, who shall be elected by the Council.

Committee on Fire Department.

Section 8. Article 1. They shall direct all repairs of the houses, fire alarm system, and fire apparatus.

Article 2. They in conjunction with the board of engineers shall hold meetings on the last Wednesday of each month.

* Adopted December 5 and 19, 1910.

Amended May 20, 1918.

1. That the salary of the chief engineer be \$150 a year and 75 cents per hour for actual service at fires. It is understood under this arrangement that he shall not put in any time except for fires.

2. That the number of assistant engineers shall be two, and that the salaries of each shall be \$50 per year and 75 cents per hour for actual service at fires. Also that two alternates from the regular force be appointed by the chief engineer on January 1, to serve in absence of the assistant engineer at a proportionate salary.

3. That the clerk of the Board of Engineers shall receive a salary of \$15 per year for his services.

4. That the members of the various companies shall each receive a salary of \$25 per year and 50 cents per hour for all services.

5. That the Superintendent of Fire Alarm shall attend to all repairs on the fire alarm system.

Under this head it is understood that he shall at all times keep the line clear of trees and branches and other obstructions and shall not receive extra pay except for manual labor; that he shall attend to the winding of all clocks and see that the house man at the Central Fire Station takes proper care of the storage batteries and switch board; and he shall see to the procuring of supplies for the whole system through the purchasing agent, with the approval of the chief engineer and fire department committee.

Sentences to House of Correction suspended	2

Total, 97

Receipts from fines and costs \$1,575 90

Disbursements 671 20

Balance to City Treasurer 904 70

EDWARD L. WELCH, Clerk.

REPORT OF PROBATION OFFICER.

To the City Council of the City of Franklin:

During the last three months of 1922, the term of my incumbency, there were no cases brought before the Juvenile Court.

One case of delinquency and one of larceny were disposed of without legal action. One case of dependent children was investigated and action thereon deferred.

It has come to the attention of your Probation Officer that many boys of the city under 18 years of age are being supplied with cigarettes in violation of law. Your officer is making an effort to reduce smoking on the part of juveniles to a minimum and to that end begs the cooperation of citizens in general.

Respectfully submitted,

WILTON E. CROSS, Probation Officer.

BOARD OF HEALTH.

The Board of Health respectfully submits the following report:

The number of contagious diseases reported, for which disinfecting was necessary, is five, the smallest number since I have been connected with the Board of Health. There were no deaths from these cases. Two of them were diphtheria and the other three scarlet fever. Four deaths were reported from tuberculosis. The total number of deaths during the entire year is 99. The number of bodies brought here from other places for which burial permits were issued, is 34.

Everything possible has been done to insure a clean and healthy city. The clerical duties of this board have been promptly and efficiently attended to.

In concluding this report we wish to thank the Honorable Mayor and Councilmen for their hearty support given us in the performance of our duties.

Signed,

W. E. SMITH,
IRVING V. GOSS,
HECTOR MORIN,

Board of Health.

ODELL MEMORIAL ARCH FUND.

Vote passed April 7, 1913.

That, the City of Franklin hereby accepts the sum of two thousand dollars given to said city, March 3, 1913, by Mrs. Herman J. Odell, same to be known as the "Odell Memorial Arch Fund", and said city hereby contracts and agrees with the said Mrs. Herman J. Odell, her heirs and assigns, to pay four per cent interest annually on said sum, said interest to be expended by duly authorized agents of said city for the following purposes only, to wit:

First. For the care and repair of the Odell Memorial Arch.

Second. For the lighting of said arch.

Third. Balance for the care of the Odell Park.

It is further voted that a copy of this vote of acceptance and contract shall be printed annually in the city reports.

Approved.

W. W. EDWARDS, Mayor.

LOUIS H. DOUPHINETT,
HERBERT A. GRIFFIN,
JAMES B. WOODMAN,

Finance Committee.

CITY SOLICITOR'S REPORT.

The action of the International Paper Company against the city for abatement of taxes on the Cross dam, which has been pending for several years, has been dismissed by agreement without expense to the city.

A small claim pending last year in favor of Charles E. Gilman, was settled by the payment of \$20.00.

A claim in favor of George Carrigan for damage to automobile caused by a dangerous embankment, was settled by payment of \$250, without suit.

I know of no other claims against the city except one in favor of John W. Dresser for damage to automobile by dangerous embankment, in which there is a fair prospect of settlement upon Mr. Dresser's return.

EDWARD G. LEACH,

City Solicitor.

CEMETERY TRUST FUNDS.

The following funds have been placed in the care of the Trustees of Trust Funds for the City of Franklin in trust, the income to be expended in the care of various lots in cemeteries within the city agreeable to Chapter 51 of the Public Statutes, and a resolution of the city council adopted September 3, 1900:

MARY J. COLBY FUND.

In the year of our Lord one thousand nine hundred and thirteen.

A resolution relating to the Mary J. Colby Fund.

Resolved by the City Council of the City of Franklin as follows:

Whereas, By the terms of the will of the late Mary J. Colby, the sum of ten thousand dollars has been given to the City of Franklin, N. H., in trust, the income to be used annually for the support of the poor of said city, and the principal to be known as the Mary J. Colby Fund:

Be it Resolved, That the City of Franklin, N. H., in accepting said trust fund hereby votes that same shall be deposited by the Treasurer of said city as follows, to wit: That the sum of five thousand dollars shall be deposited to the credit of the City of Franklin, in the Franklin Savings Bank of Franklin, N. H., *(and the sum of twenty-five hundred dollars shall be deposited to the credit of the City of Franklin in each of the following named banks, to wit: New Hampshire Savings Bank and Merrimack County Savings Bank, both of Concord, N. H.), to be known as the Mary J. Colby Fund, and that the annual interest or dividends paid by said banks on said deposits shall be expended for the benefit of the poor of Franklin, N. H., by an agent who shall be elected by the City Council of said city of Franklin, for a term of one year, and that said agent shall annually make a return to said city of the names of the persons assisted and the amounts to each, but that said names shall not be included in the list of paupers, or published.

Approved,

W. W. EDWARDS, Mayor.

Passed September 8, 1913.

*Enclosed clause repealed February 6, 1922.

That part of the above resolution relating to "an agent who shall be elected by the City Council" was repealed September 13, 1915, and trustees appointed under provisions of Chapter 162, laws of 1915.

February 6, 1922. Amended by authorizing the Trustees of Trust Funds to withdraw said money and invest same in the Bonds of the City of Franklin.

H. P. SWEET, Treasurer.

LIBRARIAN'S REPORT.

To the Trustees of the Franklin Public Library:

The year 1922 at the library has been an unusually interesting and profitable one. The circulation has been large, with a constantly growing demand for more books. The latest edition of the International Encyclopaedia, and of Webster's New International Dictionary were added during the year, as well as a number of biographies of exceptional worth, and a twelve volume history of the World War.

The tattered and soiled condition of the books in the Children's Room calls for several hundred new copies, and money for this purpose could be used to good advantage.

The libraries and public schools of the country are our greatest Americanization forces, and libraries can do this so much more cheaply than the schools that this means should be used to the fullest extent.

People who work constantly with the children of foreign-born parents are amazed at their rapid assimilation of American manners and ideals. Their taste in books is identical with that of children from American homes. They soon use the language with equal ease and fluency. They are the best missionaries we can send into the homes of the foreign born, and a few hundred dollars a year spent in attractively illustrated books about happy American children will do a permanent work in making good citizens.

The library would welcome five hundred dollars to be spent in the Children's Room next year.

The library has received no gifts of money, but a fine new book case was built by the boys of the Manual Arts department, and shelves placed in the Reference Room, under the direction of Mr. Whalen, the instructor. The finishing was done by Mr. Ruel Webster, who also finished the walls and furniture of the Delivery Room. Keegan & French also gave valuable assistance as locksmiths at one time.

Several books were given by summer residents and a magazine relating to Spanish-American interests by Dr. Charles Chapman.

The Librarian was given a two months' leave of absence during September and October, and Miss Eva Davis of the Nashua Public Library, gave efficient service while she was gone.

A library meeting was held the first of September to which librarians from the surrounding towns were invited. Miss Grace Kingsland, the state commissioner, was present.

The following statistics will show the work for the year:

Number of volumes accessioned at the beginning of 1923	13,624
Number added by purchase during the year	420
By gift	116
Federal, State and Town documents added	4
Number of volumes of magazines added by binding	9
Total	549
Number of newspapers currently received	6
Number of magazines	40
Number of volumes of non-fiction lent, adult	3,510
Number of volumes of non-fiction lent, juvenile	1,795
Number of volumes of non-fiction lent, total	5,305
Number of volumes of fiction lent, adult	33,294
Number of volumes of fiction lent, juvenile	9,168
Number of volumes of fiction lent, total	42,462
Unbound magazines lent	1,057
Total circulation for the year of 1922	48,824
Number of new borrowers added during the year	366
Approximate number of active borrowers during year	1,850

Respectfully submitted,

MRS. BARRON SHIRLEY.

RATES.

All customers are supplied through meters. The minimum charge is seven dollars and fifty cents per year, which entitles the consumer to 2,000 cubic feet during the year. Rentals are collected quarterly. For the first 1,000 feet or less in each quarter the charge is 37½ cents per 100 feet; for the excess over 1,000 feet used each quarter 25 cents per 100 feet is charged. Upon all quarterly bills exceeding \$12.50 a discount of 25 per cent of the excess over \$12.50 is made.

No charge is made for private hydrants or for automatic sprinkler service.

FRANK PROCTOR, Treasurer.

BOARD OF EDUCATION.

REPORT OF THE SUPERINTENDENT OF SCHOOLS.

To the Board of Education:—

I herewith submit my first annual report, which is the twenty-second in the series of similar reports.

I shall not attempt in this report to review the school work of the past year, as my part in it covers only a four months' period. I shall, however, frankly discuss what my short experience here convinces me are the most essential immediate needs of the school system as a whole to render it more efficient.

The most pressing immediate need is more room. My predecessor, in four annual reports, has called attention to the same fact. It is a more serious proposition this year than heretofore.

There are four grades with nearly double the number of pupils they should have. The seriousness of this condition is, that it makes the problem of discipline more difficult; that it makes individual assistance, so very essential in the lower grades, almost impossible except after school hours; that weakened discipline and little individual attention increases the per cent of failures and retardations; that every failure to make a grade means a year repeated; that each pupil repeating means an increased money expenditure by the city of about \$60.00, in the high school more than that; that failures tend to discouragement and loss of interest, and this means leaving school in too many cases, without even an elementary school education.

This result could be traced farther to show its effect upon the quality of future citizenship if need be, but I assume it is not necessary.

The crowded condition exists. A visit to the school rooms and an examination of records will show every effect I have mentioned above. The most apparent effect, in every grade above the third, is the large per cent of pupils doing unsatisfactory work, who should be in the next lower grade to say the least.

This situation is due more to a condition than to a fault, unless failure to provide more room in the past be a fault. The condition has been and is; that "doubtful" pupils have been promoted "on trial" because of the necessity of making room for each incoming class. I have no doubt that the real cause for a large per cent of the 40, one-half of whom were Freshmen, who left high school last year, (see Headmaster Swett's report), could be traced to discouragement and loss of interest, as a direct effect of crowded school rooms. I hope more room may be provided this year, for every year of delay increases the seriousness of the result.

It is not alone the results of crowded school rooms that cause children to leave school however.

The necessity of home financial aid, in the case of large families, the feeling that school is a dull place and the consequent desire to leave it as soon as the law allows, the opportunities offered in every manufacturing community for employment, all these things are influences producing discontent in the youthful mind and resulting in final withdrawal from school, and the call for labor certificates. How to keep the boys and girls in school longer is one of the big school problems in every industrial city. How to make the schools best serve the interests of the community is another problem.

We would like to see every boy and girl in Franklin get at least a high school education as that seems almost essential in these days. This of course is not being done here. It is not being done anywhere. The vital question is: Are our schools doing all they can to interest its pupils so they will, from choice, remain longer in school, and at the same time offering them courses that will better equip them for serving their community interest. The large number of work certificates issued would indicate they are not doing the former, and certainly, if not that, they are not doing the latter.

If the school fails to interest its boys and girls so that they desire to remain in it for twelve years and get all it offers, it should not fail to keep them in the first eight years—the elementary school years—to give them those things that shall prepare them to “fit in” to the life and industries of the community.

This means doing more than we are now doing. What shall it be? We have considered and are still considering building a new high school and thus relieve a crowded situation.

It is true, the high school needs more room more and more equipment to do more efficient work. But my observations and study of the school situation of Franklin leads me to conclude, that the high school cannot improve its efficiency to any considerable degree, until the efficiency of the grades has been improved.

To this end, I suggest a reorganization of the city school system from the 8-4 plan (eight years in the elementary schools, and four years in the high) to the 6-3-3 plan (six years of elementary work, three years of junior high and three of senior high). This would mean keeping the first six grades practically as they are now, and establishing and organizing a Junior High School of three grades (the third doing practically first year high school work) and leaving three years work, about as at present, for the Senior High School.

The reason for such organization is apparent. It would afford opportunity to materially improve and strengthen the work of the seventh, eighth and ninth years, the years that determine most clearly the child's decision as to choice of more school, or of entering the industries. If decision is more school, these three years will give a much better preparation for high school than is now given, because of the nature of the courses that could be offered, and because the Junior High School must have teachers specially trained for the work, thus insuring better prepared teachers.

If the decision should be to enter the industries, and many will still do this, we have opportunity to keep them

in school one year longer than now; to give them a preparation for high school, while at the same time, through specially prepared courses, equip them to enter the industries and more intelligently perform their work there.

A Junior High School would mean having a building as centrally located as possible between the two parts of the city, to which the present 7th and 8th grades of the city could be transferred and the so-called Freshman Class of the high school provided for.

Such an arrangement would relieve the present crowded condition of the high school and grades at the Falls, provide a suitable location for the Kindergarten, permit abandoning the new high school building project for one much less expensive and giving Franklin a real up-to-date Junior High School, with a course of study appealing to the psychological interests of the child; a course that would broaden one's outlook upon life; that would awaken within one an ambition to delve further into the realms of knowledge, thus ministering both to the individual and community interests. I believe it is the best thing to do at the present time.

Special Room.

In every grade are those children who, for one reason or another, do not grasp things as quickly as some others. As weeks go on these children find themselves continually falling behind in their work until they feel out-classed. Such is really the case. In the meantime the quicker ones have been retarded and feel that they have been held back from such advancement as they might have made had it not been for the slower ones. This, too, is true.

I would suggest having a room, called the "Special Room," to which these slower ones may go for special instruction by a special teacher, who could give them individual attention and help them to regain their grade standing. Such an arrangement would greatly help them, and at the same time allow the others to advance as rapidly as they were able. I believe the general bene-

fit derived from such a room would be well worth the cost of the extra teacher for it. I believe, too, that the parents of both classes of pupils would greatly appreciate such a room.

Teachers.

Of the thirty-one regular teachers in the school system, eleven are new to Franklin schools, but none without previous teaching experience. They are a good, conscientious corps of teachers as a whole, earning their money. The salary schedule needs revision. It is hardly just to pay a teacher, of from five to fifteen years' experience, no more than is paid one, of one or two years' experience, if both have had the same preparation. Ability, training and experience should be recognized in terms of salary in school work as in other things.

The teacher of today however, cannot rest upon the laurels of a Normal School graduation of the past, nor an experience of many years and expect promotion, increase of salary or retention, without evidence of ambition to keep up with the rapid progress of ever changing modern methods, by means of reading, study and occasional attendance at summer schools. The requirements for school teachers are becoming more and more exacting. Those teachers meeting requirements, are the teachers of the near future with corresponding commensurate salaries.

Books.

It will be necessary to ask for an increased appropriation for books this year.

During and since the war period, the price of school books has been so high that the supply in most schools was allowed to reach the lowest possible limit. At the present time there is not a school room in any Franklin school properly equipped with regular text books to do required work. The supplementary reading books, too, are wholly inadequate to assist pupil or teacher in doing real helpful efficient work. There is not a teacher that has not asked for large additions to her book supply.

Repairs.

The necessary repairs of the past year have been expensive. The repairs of this coming year will be as large. The roof of the high school building, repaired two years ago, is very much out of repair now. Other repairs in the high school building should be new valves for the heating apparatus adequate to meet the increased pressure of steam now allowed at the central heating plant; some new ceilings and stairs; fire escape repaired and put in working order. In the Hancock building, the toilets should be replaced by modern fixtures to prevent so great a waste of water and expense in keeping them in working order.

All the suburban schools need numerous repairs and two of them new furniture.

The Mechanic Arts department, wherever located next year, will need practically an entirely new equipment. (See Mr. Whalen's report).

Summer School.

The enrollment in Summer School was forty-seven. Most of those attending were promoted to regular class standing at beginning of the school year in September. However, I have some doubts that pupils, who have been present the entire school year and refused promotion in June, can be adequately prepared for promotion in September, after less than 50 hours of extra work in the summer. Further observations and experience may convince me this can be successfully done.

Evening School.

The total enrollment at "Evening School" has been fifty-nine. Of these, twenty-nine were adults and voluntary pupils, fifteen men and fourteen women. The attendance has been very regular and highly satisfactory, showing good interest. The attendance since the Christmas vacation has been larger than before, an unusual thing.

If a Junior High School is established, the scope of work done with these pupils could be greatly enlarged and made to attract larger numbers.

Music and Writing.

It has been highly gratifying to all concerned to again have Mrs. Watts as the supervisor of music in our schools. I can testify to great progress in most rooms. I agree with Mrs. Watts that before we get a satisfactory high school chorus, the singing in the grades must be better developed. I question the advisability of allowing high school pupils who can sing even a little to choose spelling instead of singing.

Every voice in high school should be tested. If found capable of singing, the pupil should be required to take singing.

The Houston system of writing has been introduced, because of its simplicity, and common sense. The results already justify the change. It seemed to me that no system of writing could be made really effective if the supervisor was to be changed every year. In changing the system it seemed wise to me to secure, if possible, a local supervisor as we would be more liable to retain her services for a series of years and thus secure better results. Mrs. E. L. Welch consented to prepare herself for the position and did so the past summer.

The teachers have cooperated splendidly, and I personally am much pleased with results secured. I trust you will read the reports of both of these teachers.

Health.

The school nurse has daily proven her value. A reading of her report will show you the scope of her work.

It is unfortunate, that many parents seem to have the wrong conception of her duties and of her helpful suggestions and recommendations and that in consequence their children lose the intended benefits therefrom. It is pleasing, that so many more heartily cooperate with her and that their children are healthier because of it.

Scholarships.

The graduates of Franklin High School have four scholarships available for their use in as many different colleges. The Daniell Scholarship is available for the Institute of Technology but is not at the present time being used. The Sanger Scholarship for Simmons College and the Duffy Scholarship for Dartmouth are being made use of. The Ruth Adams Scholarship for Mt. Holyoke College is another not being used at present. These scholarships should be an incentive for our graduates to try to meet their requirements and improve the opportunity of their use. When the Mechanics Arts Course of our high school is able to give more advanced work than at present, including iron work and various kinds of mechanical work, then I feel sure that some boy will be interested to make use of the Daniell Scholarship.

Conclusion.

I have endeavored to state plainly what seems to me should be known, not only to you as a school board, but to the public as well. In discussing the needs of the school and what to do to satisfy them, I have intended no criticism of teachers or school work. It has seemed best to give the real situation and ask for relief. Without knowing the facts, the public cannot be expected to support loyally any great movement, involving large expenditure of the public funds. I feel certain from the many expressions of interest in the schools, that the citizens of Franklin are ready to support any reasonable movement for improving its schools however good they may be now. I should be false to my own ideals of a school to say that I am satisfied with the schools of Franklin. We have some teachers as good as can be found anywhere. Unless we can give those teachers suitable conditions under which to work, they cannot give back to us the best results.

I know that you, the Board of Education, are fully aware of the disadvantages existing in the working conditions of the school and that you are very anxious to have those conditions improved. I believe the public

as a whole will be as anxious as you, when they understand the situation as it is.

That they might so understand it, is my reason for being so frank in this report.

In concluding this report, I wish to compliment the janitors of the Falls and Nesmith schools for the excellent condition in which they keep their respective buildings, and for the courtesy they always show the teachers, visitors and children in their buildings. I think we have the right men in the right place.

I wish, too, to express my appreciation to the citizens of Franklin for the very cordial manner in which they have received me, making me feel from the very first of my coming that I was among friends. To the teachers, who have been very patient with me while trying to get "the run of things," and who have helped me again and again, I wish to express my appreciative thanks. To you, as members of the School Board, whom I must have wearied by my much coming for information and advice, I express my gratitude for your courtesy, patience and cooperation at all times and for your genuine interest in the welfare of the schools that has made my work easier.

Very respectfully submitted,

FRED S. LIBBEY,

Superintendent of Schools.

HIGH SCHOOL REPORT.

Mr. Fred S. Libbey, Superintendent of Schools:

The number of pupils enrolled in the school this fall was 208, of which number 97 were boys and 111 girls. This figure is nearly as large as it was the year before, being only five smaller. The reason why these figures are so nearly alike is because the last entering class is unusually large. The present senior class is smaller than it was last year and 53 pupils of those who were enrolled during the preceding year were not enrolled this fall. Of these fifty-three, forty left during the year, and 13 did not return after the summer vacation.

Fifty-three, it will be observed, is almost exactly 25 per cent of the total number, 213. Some facts with reference to this percentage of pupils leaving are worth stating. All of the boys, except those that left the city and went to school elsewhere, found work, and 60 per cent of the girls found employment outside their homes. This is commonly observed to be true, that when there is opportunity for work, pupils leave school in larger numbers than when business does not offer employment.

An examination of the ranks of those who left school shows that 80 per cent were poor in their studies, poor meaning below passing in some study or in danger of it. There is a double relation between failures and leaving school to go to work. One relation is that when pupils are not succeeding well they are likely to think of getting a position. The other relation is that when there are opportunities for work pupils often lose interest in their studies. They do not listen to the argument that they will in the end earn more if they finish their course. But statistics have been gathered which show that graduates of high schools succeed better, financially, than those who leave school earlier.

One other fact in connection with pupils' leaving school is of interest: about half of all the pupils that left without graduating were in the freshman class. This would indicate that a very large part of those who left last year did so because they did not get adjusted to the high school in the first year, and, accordingly, they went to work. More-

over, of all the reasons why freshmen fail to make an adjustment easily, the most common is an inability to get well the meaning of somewhat difficult reading matter, and a corresponding difficulty in expressing their thoughts orally and in writing. In other words, the best preparation that will tend to keep pupils in the high school is a good command of the English language in reading, silently especially, and in speaking and writing the language.

During the last six years a detailed study has been made of the ranks of pupils and the facts have been indicated by graphs. This has been done for the school as a whole and for the different classes. The teachers have done this, in many cases, for their own divisions. The graphs show at a glance whether the classes are well unified, or poorly grouped; they, also, indicate the number of failures, the high ranks, and the low ranks. The hope has been to have not more than ten per cent of failures for the pupils who finish the year; but, for an average, this aim has not been attained. In order to prevent failures, pupils are helped after school, and for several years, arrangements have been made to have the beginners in Latin and the geometry pupils study their lessons in school hours under the direct supervision of the teacher. This has worked well.

But there is need of more home study. Too many pupils are willing merely to pass. Parents not infrequently ask me as to studying at home, and this seems a good time to make suggestions. I find that some parents do not examine the report cards much. These cards are made out with care and tell a good deal about the standing of the pupils. If parents find any D's and too few A's and B's on the cards, I would suggest that they keep their children at home evenings and require them to study until the work is improved. There are always outside attractions, and if parents find that these hurt the school work, the children should be kept away from a certain amount of them. Such a method is used in private schools, where pupils do not live at home, and parents can adopt the same method.

The number of graduates in 1922 was 32. This is 48

per cent of the number who entered the school four years before. This falling off in numbers is close to the average of all the schools in the state. The percentage of graduates who go to other schools is high.

The number of regular teachers is ten, and of these six are new to the school.

I have dwelt upon these internal affairs of the school partly because the conditions of a more external nature remain much the same as they were at the time of the last report. The building accommodations remain the same. The chemical laboratory is insufficient; the arrangement of the commercial rooms is unsatisfactory; the pupils should have a basement room where they can congregate. The manual training equipment needs improving in some particulars and additions in others in order to bring the department to the standard it ought to have.

Football was introduced this year. An otherwise successful season was marred by the death of Frank Massa, caused by an accident during a game. His death made a profound impression upon the school and the feelings of the pupils were expressed in various fitting ways. He was a member of the Junior class, having entered only a short time before the accident.

The Sanger Scholarship for Simmons College has again been awarded to Miriam Downes, who is a senior. The Duffy Scholarship was awarded to Joseph Burleigh. No one, at present, is making use of the Daniell Scholarship for the Massachusetts Institute of Technology and the Ruth Adams Scholarship for Mt. Holyoke College.

Respectfully submitted,

H. P. SWETT.

DOMESTIC ARTS.

Mr. Fred S. Libbey, Superintendent of Schools:

I herewith submit my first report as instructor of Domestic Arts in the Franklin schools.

The seventh and eighth grades each have two hours a week for work in Domestic Arts—one hour for cooking and the other for sewing.

In sewing, both grades spent the entire Fall term in making standard cooking aprons. This is too long a time to spend on one project, but only one machine is in condition to be used, and only one hour a week can be given to the grades under present conditions.

In cooking, the first part of the term was spent in canning such fruits as pears, apples and tomatoes. They also made piccalilli. In addition, they have had practice cooking in cereals, quick-breads, griddle cakes, soups, salads, puddings, cakes, cookies and pies.

The Freshmen girls have five double periods a week for cooking and sewing. The first three days are used for practice in cooking, and the other two days for sewing.

In the first part of the term, the girls canned tomatoes, pears, plums, peaches, made jelly, conserves and chili sauce. They have had in addition, practice cooking in fruits, beverages, cereals, quick-breads, yeast breads, soups, salads, cakes, pies, doughnuts and cookies. At present we are making an extensive study of meats. The girls have also prepared and served two luncheons.

In sewing, cooking aprons, caps, underwear and Christmas gifts have been made.

The Sophomore girls are taking a course in Household Appliances. They have taken up the study of heat, making actual investigations of heating plants about the city. They have also made a study of the plumbing systems, both supply and drainage, taking trips to the plumbers' for observation.

The Junior girls are taking Household Organization. They have taken up the building of a house from the building of the foundation to the interior and exterior finish. They have also drawn to scale, original plans of homes such as they would like to live in. At present they are very interested in furnishing the various rooms corresponding to their house plans.

I have four Senior girls who are taking Household Management. They have taken up the study of household accounts and budgeting; the principles of efficient buying, both of food and clothing, and a study of the different textiles. At present they are taking up the scientific management of the home.

All the high school classes in Domestic Arts have participated in preparing and serving noon lunches to those who stay in the school at noon. Thus far, those lunches have consisted of cocoa or corn chowder.

The ideal of all Home Economics courses is to raise the standards of home-making by providing certain ideals of beauty and intelligent workmanship. However, these ideals cannot be carried out properly unless there is a strong co-operation between the home and the school.

Respectfully submitted,

THELMA M. PICKERING.

REPORT OF MUSIC TEACHER.

Superintendent Fred S. Libbey:—

Dear Sir: I submit, herewith, my first annual report, also a sixth, after an absence of five years.

During this absence, four supervisors have had charge of the music. It has been my pleasure to know them all. I found them much interested in the work, but they did not remain to establish any system, consequently the music has suffered for lack of any definite method.

As plans for a building are carefully laid with an eye

to a complete structure, so music should be taught from the kindergarten on up through the grades, with the culmination in a chorus in High School that will be worthy of the name, chorus.

It has been my purpose the past term to get the pupils to sing and some grades have responded much better than others. No time has been devoted to playing the Victor. I am yet to be convinced that this is a way to teach pupils to sing and read music. Along with the singing as much sight singing has been taught as time has allowed. Some of the younger children have taken hold of this reading work very well.

The average boy and girl who arrives in Junior High School and Senior High School with little or no knowledge of sight reading and part singing, takes very little interest in this branch of school work, and very little real work can be accomplished. The present Senior High School is a splendid example of just this condition. Either absolute indifference or inability to sing a bass or tenor part in the male section of the chorus, is the condition of affairs which has existed for some time, reports the head-master.

In these days when so much is said of efficiency, it seems a great waste of a pupil's time, to sit during a singing period not making a singing sound. I hope it may be my privilege to see in a Senior High School chorus, here, only pupils who can read music fairly well and really desire to be a part of a singing chorus and not fill up a seat to escape a spelling class which is the option.

The Junior High School at the Nesmith building has its singing lesson as a class. I hope this same thing may work out in the Falls Junior High School. When "the long looked for" new building becomes a reality, which will include an assembly hall, the Junior High School choruses will have a place to gather together now and then for practice with a piano, a thing that is not possible now. This assembly hall would also give the orchestra and glee club a much more ideal place to practice than can be had at present.

Outside of school, a girls' glee club and orchestra meet once a week, one night each, for practice. The glee club will include those members of the Junior High School who care to join the coming term. At present both organizations are alive and not much more can be said of either.

Our music books in the grades are in very bad shape but this will be remedied early next term I am told.

In closing, may I express my appreciation to you, Mr. Libbey, for your kindly interest in the work and to the teachers who have very carefully prepared lessons from plans laid out.

Respectfully,

J. ESTELLE C. WATTS,

Supervisor of Music.

December 11, 1922.

REPORT OF SUPERVISOR OF MANUAL TRAINING.

Mr. Fred S. Libbey, Superintendent of Schools: Dear Sir:—

In submitting my third annual report as Supervisor of Manual Training, I will begin with a brief outline of work accomplished in the past.

New classes coming in have been somewhat larger, overtaxing in some instances the capacity of the department and retarding first quality work and efficiency for a time. However, the boys have, for the most part, displayed a keen interest and have completed many difficult and serviceable projects.

The Manual Training Department was, last June, enabled to make a distinctly creditable showing at the School Exhibit and the boys were justly proud to have the opportunity of exhibiting, to an interested public, samples of their handiwork.

The work of the Grammar School boys was satisfactorily executed, but under their short time allowance of thirty-six periods a year, a sufficiently clear insight into the fundamentals of the work was scarcely obtainable. This time handicap has now been removed and Junior High boys have been enabled to accomplish much work hitherto not undertaken in the Junior section.

Included in the following lists are many of the projects completed by the High School boys: tables, plant stands, taborets, a mission chair, fancy plate racks, pine chests, piano seats, umbrella racks, mallets, candle-sticks, gavels hammer handles, screw-driver handles, picture frames, foot-stools, plant boxes, typewriter tables, necktie racks and book cases for the Public Library.

The work shows a decided improvement over previous effort in spite of the fact that our equipment is inadequate. The work benches, having served many useful years, are now, owing to length of service and light construction, showing signs of wear and weakness. In addition, there are not enough benches to take care of some classes and I would recommend the installation of six fully equipped and up to date manual training benches. I would also recommend the purchase of new vices, as the present ones are practically worn out.

Three lathes are not in working condition because parts are and have been missing for several years. The wooden floor is not a sufficiently firm foundation for the lathes and is a hindrance to good work.

The circular saw table is old and frail and the saw dangerous to operate, consequently, I would recommend the purchase of a new and modern saw-table, and also a new planer to replace our present old and extremely noisy machine.

To sum up, it might be said that the Manual Training Department contains equipment nearly worn out and it will soon be a matter of necessity to install new replacements throughout.

Respectfully submitted,

JOHN W. WHALEN,
Supervisor of Manual Training.

REPORT OF INSTRUCTOR IN PENMANSHIP.

Mr. Fred S. Libbey, Superintendent of Schools:—

In October, 1922, the Houston System of Penmanship was introduced into the Franklin Schools. This is a system which has attained much prominence, because it seems to fill the needs of the present day schools. Its aim is to secure legible, fluent writing by all pupils with the greatest saving of time and effort. By omitting the oval exercises and the push and pull movement, a kind of practice is obtained which can be used in all written work. Letter forms and combinations of letters are substituted for the exercises and the arm movement is obtained through large writing. In this way every stroke, being upon a letter or word is of practical value to the pupil and results are obtained with no wasted time.

This system has been adopted in many New Hampshire schools and is endorsed by leading educators of the state. It embraces the most up-to-date methods of Penmanship teaching.

Although the time has been short, we are getting results in the Franklin schools. A gradual change is apparent in the writing throughout the grades and it is hoped that by following this system conscientiously and systematically the writing of the pupils may be raised to a high standard. Much credit is due the teachers for their hearty cooperation.

Parents are cordially invited to visit the Penmanship classes.

Respectfully submitted,

HELEN P. WELCH.

REPORT OF SCHOOL NURSE.

To the Superintendent of Schools:

Medical inspection has been carried on the same as last year with the following result:

Public School.

Weighed and measured	739
Underweight	280
Defects found:	
Defective teeth	367
Enlarged tonsils,	
Slight	146
Marked	17
Adenoids	23
Defective vision	52
Defective breathing	38
Defective hearing	6
Other defects	9
Orthopedic	1
Glands	3
Unvaccinated	14
Pediculosis	5

Treatment Secured.

Defective teeth	156
Defective vision	17
Enlarged Tonsils	8
Adenoids.	3
Skin disease	7
Defective breathing	1
Unvaccinated	6

St. Mary's.

Weighed and measured	457
Underweight	176
Defects found:	
Defective teeth	216
Enlarged tonsils,	
Slight	98
Marked	19
Defective vision	37

Adenoids	10
Defective breathing	45
Defective hearing	10
Other defects	7
Orthopedic	3
Unvaccinated	3
Pediculosis	17

Treatment Secured.

Defective teeth	181
Defective vision	20
Enlarged tonsils	7
Skin disease	1
Defective hearing	4
Defective breathing	2

In looking over the medical inspection report, it will be noticed that there is not so large a percentage of underweight pupils as there was last year.

In the report "treatment secured" or the defects that have been corrected, you will find that a great many have had dental treatment.

Many cases of defective vision have been corrected and a few cases of tonsils and adenoids also.

In February, 1921, milk was procured for the pupils in the lower grades.

Seventy pupils had a half pint of milk at recess and all gained weight, many of them getting up to normal.

It would be very gratifying, if in the near future, milk could be given to all the school children, free of charge.

Enough tooth paste was received from the Colgate company to furnish each child with a tube and two gross of tooth brushes were procured for the children, who wanted them, at a very small price.

The "Jolly Jester," a health clown from the Child's Health Organization, came in January and entertained the children. This was done through the generosity of the Woman's Club and the Parent-Teacher association.

Again in June, through the generosity of the Red Cross, "Astra," the health fairy entertained them.

Both of these entertainers did a great deal in putting over the health habits to the children.

A health play, "The Quest for the Fountain of Health," was successfully given by the pupils of the lower grades before the closing of school.

The school buildings are in excellent sanitary condition always.

Respectfully submitted,

ANNIE R. PROVOST,

School Nurse.

SCHOLARSHIP FUNDS.

SANGER SCHOLARSHIP.

Resolved by the Board of Education of Franklin :

Whereas, Warren F. Daniell has by his written communication addressed to the Board of Education, expressed his intention of establishing a free scholarship for graduates of the Franklin High School in Simmons College in honor of his mother, and to be known as the "Sanger Scholarship," and agreeing to pay annually a sum sufficient to pay the costs of tuition for one student for four years in any of the courses described in the catalogue of the College, and

Whereas, a student to be awarded this scholarship must comply with the following regulations: First, she must have completed four years' satisfactory work at the Franklin High School; second, her parents must reside in Franklin.

Be it Resolved: That the Board of Education of the City of Franklin fully appreciate the spirit that prompted Mr. Daniell to establish this scholarship for the benefit of the young women of said city, thereby creating an additional incentive for higher educational advantages: and

Be it further Resolved: That said Board of Education willingly accepts said trust: and

Be it further Resolved: That a permanent Committee on Scholarship shall be established to consist of the Chairman of the Board of Education, the Superintendent of Schools and the Headmaster of the High School of said city, and

Be it further Resolved: That this resolution shall be printed annually in the school report of said Board.

FRANKLIN STUDENT AID FUND.

To the Mayor and Members of the City Council, Franklin, N. H.:

In June, 1921, I placed with Dartmouth College at Hanover, N. H., a fund of \$2,500.00—the income from which I wished to be used to assist under certain conditions students at that institution who were residents of this city.

It was found incompatible with the methods of disposing of the funds at Dartmouth College, to handle this fund under the conditions which I wished to impose—and for that reason I have transferred this sum from Dartmouth College to the City of Franklin.

I am attaching herewith the securities representing the fund together with a statement of the methods I wish followed in disposing of the income from the fund.

Respectfully yours,

WALTER F. DUFFY.

FRANKLIN STUDENT AID FUND.

Established by Walter F. Duffy, June, 1921.

A sum of \$2,500.00 is entrusted to the City of Franklin, N. H., the income from which is to be used to assist worthy boys and girls residents of this City to secure a collegiate education or its equivalent.

The recipients of the income from this fund are to be selected by a board of three consisting of the Chairman of the Board of Education, Superintendent of Schools and Principal of the High School of the City of Franklin, N. H.

The income from this fund is to be disposed of under the following fixed conditions:—

I. Scholarship.

A student must attain such satisfactory standing in studies as to make it apparent to the authorities of the institution of learning where he attends, that it is advisable that the student pursue his studies and that he is on this account worthy of financial aid.

II. Financial Needs.

It is to be required that the students who receive benefit from this fund shall be obliged, through lack of family financial resources, to earn at least a substantial part of the money necessary to meet the expenses of their attendance upon their studies.

III. General Restrictions.

It is to be understood that in allotting the proceeds of the fund, preference is to be given to students at Dartmouth College, Hanover, N. H., who are residents of the City of Franklin, N. H. If no such students apply for the benefits of this fund, then the income can be used to assist any boys or girls who are residents of the City of Franklin, N. H., and who are pursuing a course of studies in any institution of learning giving a collegiate education or its equivalent, provided that the first two conditions covering the disposition of the benefits of this fund are fulfilled.

It is also to be understood that the income from this fund may be divided between two or more students, and that any students who receive financial aid from the institutions of learning where they attend are not thereby prevented from receiving aid from this fund.

If no students fulfilling the above requirements apply for the benefit of this fund the proceeds may be used as they accrue each year as seems best to the three persons mentioned above for the general educational good of the citizens of Franklin, N. H.

DANIELL SCHOLARSHIP.

In the year of our Lord one thousand nine hundred and fourteen.

A resolution relating to the "Daniell Scholarship."

Resolved by the City Council of the City of Franklin, as follows:

Whereas, Jere R. Daniell of New London, Connecticut, on the second day of April, 1914, by his written communication of that date, addressed to the Mayor and Council of the City of Franklin, expressed his intention of establishing a free scholarship for graduates of the Franklin High School to the Massachusetts Institute of Technology, in memory of his father, the late Warren F. Daniell, and to be known as the "Daniel Scholarship," and together with his letter of the 16th of May, 1914, in which he agreed to give the sum of two hundred and fifty dollars each and every year, hereafter, beginning September 1st, 1914, to cover the costs of tuition for one student for four years in any one of the courses described in the catalogue of the Institute, and,

That a student to be awarded this scholarship, in whole or in part, must comply with the following named conditions:

First. He must have completed four years' satisfactory work at the Franklin High School.

Second. His parents or parent must reside in Franklin, and be unable without undue deprivation, to pay the tuition required themselves.

Third. He must show during his four years' work at the High School, marked ability in some one of the several subjects covered by the Institute courses.

In case several candidates present themselves in any one year, the scholarship will be awarded by competition in the entrance examinations for the Institute. The candidate entering with highest standing to receive the award.

A holder of the scholarship will be expected to maintain the same standard of work at the Institute as that required of holders of regular Institute scholarships and the scholarship will be withdrawn in case the work is unsatisfactory.

The right is reserved to divide the amount of the scholarship among several applicants should such action seem desirable.

Be it resolved, That the City of Franklin fully appreciates the spirit that prompted Mr. Daniell to establish this scholarship for the benefit of the young men of said city, thereby creating an additional incentive for higher educational advantages in those who through misfortune or adversity would otherwise be prevented from obtaining the same; and,

Be it further resolved, That said City willingly accepts said trust, and does hereby direct that the annual payment of the sum of two hundred and fifty dollars shall be made to the City Treasurer, who shall pay the annual tuition of said student or students upon the presentation of the bill for same by the Bureau of the Institute, and,

Be it further resolved, That a permanent Committee on Scholarship shall be established to consist of the chairman of the Board of Education, the Superintendent of Schools and the Principal of the High School of said City of Franklin, and

Be it further resolved, That this resolution shall annually be printed in the reports of said city.

Approved.

W. W. EDWARDS, *Mayor*.

Passed June 1, 1914.

ACCOUNTANT'S REPORT.

To the Mayor and Council of the City of Franklin:

I have carefully examined and verified the books and accounts of the City Clerk, Treasurer, Tax Collector, Board of Water Commissioners, Superintendent of Water Works, Board of Education, Overseer of the Poor, Park Commissioners, Trustees of Trust Funds for the City of Franklin, and Clerk of the Municipal Court, for the year 1922, and find the same correctly cast with proper vouchers corresponding to all expenditures, and all receipts properly accounted for and find the following balances to the credit of the City:

Cash on Hand	257 61
Due on 1922 Tax List	7,511 61
Due from the State of New Hampshire.....	744 59

JOSEPH NEWTON, Auditor.

RESOLUTIONS.

In the year of our Lord one thousand nine hundred and twenty-two.

A resolution relating to the appointment of the Standing Committees of the City Council.

Resolved by the City Council of the City of Franklin, as follows:

That the Mayor be authorized to appoint the following Standing Committees of the Council to consist of three members each:

Highways,
Sewers,
Fire Department,
Police,
Schools,
Public Lands and Buildings,
Ordinances,
Street Lighting,
Cemeteries,
Claims,

Finance to consist of the Mayor and two members of the Council.

Approved, L. H. DOUPHINETT, Mayor.

Passed January 2, 1922.

In the year of our Lord one thousand nine hundred and twenty-two.

A resolution relating to Hiring Money.

Resolved by the City Council of the City of Franklin, as follows:

That the Mayor and City Treasurer, for the time being,

are authorized to hire money to pay the current expenses of the several departments, and any outstanding notes, bonds, or evidences of debt of the city becoming due, and to give promissory notes therefor.

Approved, L. H. DOUPHINETT, *Mayor*.
Passed January 2, 1922.

In the year of our Lord one thousand nine hundred and twenty-two.

A resolution relating to the Weekly Pay Rolls.

Resolved by the City Council of the City of Franklin, as follows:

That the Mayor be and hereby is authorized to draw his draft each week for the payment of the weekly pay rolls of the highway, sewer, and other departments where week'y payment is required:

Approved, L. H. DOUPHINETT, *Mayor*.
Passed January 2, 1922.

In the year of our Lord one thousand nine hundred and twenty-two.

A resolution relating to the Mary J. Colby Fund.

Resolved by the City Council of the City of Franklin, as follows:

Whereas, there was passed by said Council under date of September 8, 1915, a Resolution authorizing the depositing of twenty-five hundred dollars, money of the Colby fund, in the New Hampshire Savings bank and a like sum in the Merrimack County Savings bank, both of Concord, in said State,

Therefore, be it Resolved, that so much of said Resolution as pertains to the depositing of money as above stated, be repealed,

And be it Resolved, that the Trustees of Trust Funds

be authorized to withdraw said money, and invest the same in Bonds of the City of Franklin.

Approved, L. H. DOUPHINETT, *Mayor*.
Passed February 6, 1922.

In the year of our Lord one thousand nine hundred and twenty-two.

A resolution regulating the duties of Superintendent of Fire Alarm.

Resolved by the City Council of the City of Franklin, as follows:

That the Superintendent of Fire Alarm shall attend to all repairs on the fire alarm system.

Under this head it is understood that he shall at all times keep the line clear of trees and branches and other obstructions and shall not receive extra pay except for manual labor; that he shall attend to the winding of all the clocks and see that the house man at the Central Fire Station takes proper care of the Storage Batteries and Switch Board; and he shall see to the procuring of supplies for the whole system through the Purchasing Agent, with the approval of the Chief Engineer and Fire Department Committee.

All other regulations relating to the Superintendent of Fire Alarm are hereby repealed.

Approved, L. H. DOUPHINETT, *Mayor*.
Passed March 6, 1922.

In the year of our Lord one thousand nine hundred and twenty-two.

A resolution relating to the discount in the Collection of Taxes.

Resolved by the City Council of the City of Franklin, as follows:

That in the collection of taxes the tax collector be authorized and directed to make the following discount: Upon all taxes paid on or before August 1, two per cent, and the collector shall give notice to all persons whose poll tax remains unpaid September 1, and if same is not paid in fourteen days thereafter, twenty cents shall be added.

Approved, L. H. DOUPHINETT, *Mayor*.
Passed March 6, 1922.

In the year of our Lord one thousand nine hundred and twenty-two.

A resolution relating to the discount in the collection of taxes.

Resolved by the City Council of the City of Franklin, as follows:

That the resolution passed March 6, 1922, in relation to discount in the collection of taxes be amended by substituting the word tenth in place of the word first in the third line, so that the resolution as amended will read as follows:

That in the collection of taxes the tax collector be authorized and directed to make the following discount:

Upon all taxes paid on or before August tenth, two per cent, and the collector shall give notice to all persons whose poll tax remains unpaid September 1, and if same is not paid in fourteen days thereafter, twenty cents shall be added.

Approved, L. H. DOUPHINETT, *Mayor*.
Passed by the Council August 7, 1922.

In the year of our Lord one thousand nine hundred and twenty-two.

A resolution relating to the death of Councilman Albert E. James.

Resolved by the City Council of the City of Franklin, as follows:

That in the death of our associate, Councilman Albert E. James, our city has lost a good citizen, and an efficient member of the Police and Fire Departments; that the City Government has lost a most useful and respected member, and that his death is most sincerely regretted by his associates in the City Government and his many friends.

The City Government hereby desires to express its sorrow and to extend to the bereaved family our most sincere and heartfelt sympathy.

Passed by the Council, September 1, 1922.

Approved, L. H. DOUPHINETT, *Mayor*.

In the year of our Lord one thousand nine hundred and twenty-two.

A resolution relating to the election of councilman in Ward 3.

Resolved by the City Council of the City of Franklin, as follows:

That the Supervisors of Ward Three are requested to insert an article in the Warrant for a meeting to be held on the fourth Tuesday of November, 1922, as follows:

To elect a councilman for the unexpired term ending January 7, 1924, to fill the vacancy caused by the death of Albert E. James.

Passed November 6, 1922.

Approved, L. H. DOUPHINETT, *Mayor*.

In the year of our Lord one thousand nine hundred and twenty-two.

A resolution relating to borrowing money for the payment of \$45,000 for the New Daniell Bridge.

Resolved by the City Council of the City of Franklin, as follows:

That for the purpose of paying for the New Daniell Bridge at an expense of forty-five thousand (\$45,000) dollars, the City borrow from the Franklin Savings Bank the sum of forty-five thousand (\$45,000), dollars and issue its notes payable serially for that sum with interest at the rate of four and one-half ($4\frac{1}{2}$) per centum, per annum; that the Mayor and City Treasurer be and hereby are authorized to make, execute, sign and issue twenty (20) notes of the City for two thousand two hundred and fifty (\$2,250) dollars each, payable serially, one each year thereafter, the first note due and payable December 15, 1923, payable to the said Franklin Savings Bank or order, with interest payable at four and one-half ($4\frac{1}{2}$) per centum payable annually, and the proceeds of said notes are hereby appropriated for the payment of said New Daniell Bridge.

Passed by the Council, December 18, 1922.

Approved, L. H. DOUPHINETT, *Mayor*.

ORDINANCES.

Relating to the Collection of Garbage.

In the year of our Lord, one thousand nine hundred and sixteen.

Be it ordained by the City Council of the City of Franklin as follows:

Section 1. The collection of garbage by the highway department of the city shall be made at the times and under the conditions herein set forth, and in no other manner.

Section 2. Weekly collections will be made each Saturday starting at seven a. m., at the Daniell bridge on Central street and continuing easterly to the Sanborn bridge, including Smith, Canal and Memorial streets, and Franklin street southerly from Central street to Ayles Court. Commencing at ten a. m., on each Saturday, collections will be made on Main street.

Section 3. That on the first Tuesday of each month, collections will be made on Willow Hill, Bow street, Glenwood avenue, River street, Terrace street and Ward 1; on Wednesday following, collections will be made on Franklin street and all streets westerly to River street, and on Myrtle, Pleasant, Oak, Orchard, Pine and Beech streets, Highland and Elm avenues; and on Thursday, collections will be made on Prospect street and all streets between Prospect and Franklin streets.

Section 4. It shall be the duty of all persons residing within the limits hereinbefore set forth who desire to have garbage or refuse matter removed by the city to place same in suitable receptacles that can be handled by two men, carefully separating all papers, tins, bottles and other materials from ashes, and placing them in separate receptacles. No garbage or refuse of any kind

shall be put into the highway unless placed in receptacles, and all receptacles shall be placed on the outer edge of the sidewalk, a reasonable period in advance of the time specified for collections.

Section 5. This ordinance shall take effect upon its passage.

Approved.

A. A. BEATON, *Mayor*.

Passed March 6, 1916.

Report of Committee on Street Lighting Relating to Poles and Wires of Telephone and Other Companies.

To the Mayor and City Council of Franklin:

The Committee on Street Lighting to whom was referred the subject matter, relating to the wires and poles of telephone and other companies, having considered the same herewith file their report and recommend that the same be adopted, to wit:

1. That poles of every kind and description and all overhead wires of telephone or other companies on Central street, between the Daniell bridge, so called, and the Sanborn bridge, so called, shall be removed on or before July 1st, 1916, and that all wires between said points on Central street shall hereafter be placed under ground, in accordance with such rules and regulations as shall be prescribed by the highway committee of said Franklin, with adequate provision made for installing by the city of such wires in the future as may be necessary for municipal purposes.

2. That the regulations now in force in said city relative to the erection of square poles by telephone and other companies, as adopted by said city, May 13, 1901, be and the same are hereby revoked as of July 1st, 1916, and that telephone and other companies on and after July 1st, 1916, may erect round, straight and painted poles on any street in said Franklin, other than on Central street between Daniell bridge, so called, and Sanborn bridge so

called, provided, such poles proposed to be erected and the location of the same, shall first meet with the written approval of the highway committee, said written approval to be filed with the City Clerk of said Franklin.

3. That the maintenance of United States mail boxes and fire alarm boxes are exempt from the provisions of the regulations hereinbefore set forth.

4. That this report shall be printed annually in the City Reports.

Respectfully submitted,

JOSEPH M. LORDEN,
ALVIN C. GILMAN,
P. J. CUNNINGHAM,

Committee on Street Lighting.

D. E. DAVIS, *Mayor*.

Adopted December 6, 1915.
